

## **NEW MEMBERS!!**

I'm Corey Filbert, a member of the American Dietetic Association's New Member Advisory Committee (NMAC). In 2002, the ADA Board of Directors established NMAC as a standing committee, with the charge of recommending programs and services that especially would benefit new ADA members – those who have been with the Association for fewer than five years.

One of the services that NMAC has recommended is a newsletter for all new ADA members. During their first year with ADA, members will receive eight issues of the newsletter that will highlight new ADA programs, benefits and services available through their membership.

We value your input and would like you to take a look at this issue and get back to me with your feedback. Future issues of this newsletter will be mailed to first-year ADA members to apprise them of products, benefits, and services to which they may not be familiar. We value your ideas and input too, however, and would like to continue communicating with you electronically.

I am also acting as your state affiliate new member representative and will send you information on both your affiliate and ADA. And collect your feedback on issues related to the dietetics profession or ADA.

Thanks again for taking the time to read this new member update. I look forward to your input. Please contact me Corey Filbert (email: [cjfilbert@stmarys.org](mailto:cjfilbert@stmarys.org) 812/4858642) with questions or feedback.

Sincerely, Corey Filbert RD, CD
